Call for Articles for the July 2016 edition of MetricViews

The Editors of MetricViews, IFPUG's semi-annual publication, are now accepting articles for the July, 2016 edition. We are seeking articles of between 1,000 and 3,000 words, with graphics, on a subject of continuing interest to Function Point Analysis and SNAP practitioners. Articles on measurement showing the business value of Information Technology or making better business decisions based on measurement will be especially appreciated, as will articles following a theme of your choice. We are adopting a theme of "Show Me The Metrics!"

Please submit your first draft to cmc@ifpug.org by Sunday, May 22, for

consideration for the July, 2016 edition, which will be distributed electronically mid-July, 2016.

Articles submitted on or before May 22 will have the highest likelihood of appearing in the edition. Those submitted later may be deferred to a subsequent edition.

Agile Development, Better Software, and Dev Ops West Conferences Las Vegas NV, June 5 - 10, 2016

Discover three conferences in one location! Agile Dev, Better Software, & DevOps West are the premier week-long conferences bringing all aspects of the software lifecycle to the forefront. These conferences are coming to Caesars Palace in Las Vegas from June 5-10, 2016. One registration gets you exclusive access to all three of these industry-leading events, with more than a hundred learning sessions and networking opportunities to choose from:

Agile Dev West - Get inspired and learn the latest in agile methods, technologies, tools, and leadership principles.

Better Software West - Explore tools, trends, and issues related to many topics, such as project management, people and teams, software testing and QA, software requirements, process improvement, metrics, mobile, design, architecture, and more.

DevOps West - Dedicated to DevOps brings the latest in methods, processes, technology, and tools that are being used to integrate agile development with systems operations. Learn why DevOps is important to your organization and what you need to know about the four continuous processes: development, integration, testing, and delivery.
