IFPUG presents the following news of interest to our members:  
Call for MetricViews Articles

## ***Call for Articles for the July 2016 edition of MetricViews***

The Editors of MetricViews, IFPUG's semi-annual publication, are now accepting articles for the July, 2016 edition. We are seeking articles of between 1,000 and 3,000 words, with graphics, on a subject of continuing interest to Function Point Analysis and SNAP practitioners. Articles on measurement showing the business value of Information Technology or making better business decisions based on measurement will be especially appreciated, as will articles following a theme of your choice. We are adopting a theme of "Show Me The Metrics!"

Please submit your first draft to [cmc@ifpug.org](mailto:cmc@ifpug.org) by Sunday, May 22, for consideration for the July, 2016 edition, which will be distributed electronically mid-July, 2016.

Articles submitted on or before May 22 will have the highest likelihood of appearing in the edition. Those submitted later may be deferred to a subsequent edition.
