Deliver *Wow!* Through Products and Services

- Anything worth doing is worth doing with **WOW!**
- To **WOW**, IFPUG differentiates itself by doing things in an unconventional and innovative way.
- We go above and beyond the average level of service and products to create an emotional impact on the receiver and give them a positive story they can take with them the rest of their lives.
- **Wow = impress greatly**

**To accomplish great things,
we must not only act, but
also dream; not only plan,
but also believe."**

Anatole France

**1844-1924, Poet, Journalist, and
Novelist**

Embrace and Drive Change

- IFPUG not only handles constant change, but expects it and embraces it with open arms.
- We are unwilling to accept or become comfortable with the status quo, but are always thinking of ways to improve processes, perspectives, opinions and to drive greater value for our customers.
- Without a sustained focus on introspection, innovation, improvement, and enhancement to our business value, we can't continue to provide the superior service that is IFPUG's trademark.

Be Adventurous, Creative and Open-Minded

International Function Point Users Group

Pursue Growth and Learning

- We stretch ourselves both personally and professionally by developing and delivering innovative software measurement products and services.

Signature Line

Build Open and Honest Relationships with Communication

- IFPUG members, committees and Board of Directors (BOD) are an open book; our honesty when interacting with others leads to strong relationships built on trust and faith. We use these strong relationships to accomplish much more than otherwise possible for our end customers.

Build a Positive Team and Family Spirit

- IFPUG wants to build not just a team, but a family. The Board and Committee chairs serve those they lead by removing obstacles and enabling each member of the IFPUG community to succeed. We work together and play together, because our bonds go beyond the typical co-worker relationship.

Improve Continuously

- IFPUG volunteers are always on the lookout for how to make our products and services more efficient and to provide greater value to our customers.
- Always exploring room for improvement, we always feel a sense of urgency when making those improvements.
- We strive to set and exceed our own high standards for getting more done with the same or even fewer resources than before.

"Do not wait; the time will never be 'just right'. Start where you stand, and work with whatever tools you may have at your command, and better tools will be found as you go along."
Napoleon Hill

improve

Be Passionate and Determined

- IFPUG volunteers have a passion for software measurement. We don't take "that will never work" for an answer. We maintain a positive and optimistic attitude, because this inspires others around us.

"Put me in, coach!" Your positive attitude is displayed when you're ready to play and ask for the opportunity to get into the game. Tell your leader, "I've been doing things to prepare myself for this job/task. I'm confident I can deliver if you'll give me the chance!"

~Paul Sims
